MANITOBA POPULATION ESTIMATES - October 1, 2003

		October 03	July 03	October 02
POPULATION		1,164,100	up 1,400	up 6,800
NET MIGRATION	**(January to October)**		**2003**	**2002**
	Interprovincial		-1,970	-1,625
	Total		2,668	2,103

Manitoba's total population was estimated at 1,164,100 persons as of October 1, 2003, up 1,400 persons from the July 1, 2003 estimate. Population growth continues on an annual basis, with Manitoba's increase since October 1, 2002 estimated at 6,800 persons, or 0.6%. A large portion of Manitoba's estimated population gain during the first three-quarters of 2003 was the result of immigration.

We recorded a net loss of 1,970 persons to other provinces through interprovincial migration in the first three-quarters of 2003, a difference of 345 persons from the net loss of 1,625 persons in the first three-quarters of 2002. In the first three-quarters of 2003, Manitoba gained population on a net basis chiefly from New Brunswick (51), while most of the losses were to Alberta (-980), British Columbia (-548) and Quebec (-125).

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement were combined with interprovincial migration, Manitoba recorded an overall net migration gain of 2,668 persons in the first three-quarters of 2003. This is a 27% improvement over the first three-quarters of 2002's value of 2,103 persons. It is also the highest first three-quarters inflow since 1983 when it was 4,143 persons.
